London, May 2 (Cable)—
West Bromwich Albion,

splendid season's work by

Albion went up in senior
company when they beat
Charlton Athletic, while their
carries promotion, Tottenham
Hotspur, lost to Arsenal.

Blackpool saved them-
selves from demotion by draw-

Boston Red Sox Clout Three Washington Pitchers Hard

The Greatest Motor Car Value of All Time

How Auburn can do it

There is a very good reason why the 1931 Auburn is a pleasing challenge to the whole industry to produce no fine car at anywhere near the Auburn price.

We believe Auburn was the only automobile manufacturer who sold their entire 1930 output. All the high priced materials, purchased in late 1929 were thus disposed of, and NEW CONTRACTS placed for materials in December 1930, for the new Auburn 1931 models. Commodities prices in December 1930 were the lowest in years.

Those manufacturers who did not dispose of their 1930 output, cannot compete with Auburn in price value, as they are still selling copper (and other materials) which they purchased at the much higher prices.

That is one reason why you will find in the Auburn Straight Eight an incomparable beauty and exclusive features which no other car offers—AT ANY PRICE.

Before You Buy a Car, See and Drive the Auburn—the car that has everything.

ALWAYS

**the backbone of
Canadian advertising!**

And particularly when selling becomes difficult—when prosperity lags—when the wheels of industry slow down.

During periods such as these, Canadian business executives depend more than ever on the daily newspapers to sell merchandise.

Why?

Mainly because daily newspapers produce *instant response, instant results*.

Daily newspapers *reach* and *move to action* vast groups of people quickly.

No other carrier of the sales message covers a market so *intimately, so completely*.

Practically every Canadian family reads a daily newspaper. It is an essential part of their daily life. Without it they would feel a distinct loss. Nothing can take its place. Because it occupies this unique position in Canadian life and thought, no form of selling can supplant the daily newspaper.

It is economical.

It is flexible:

It is the advertiser's unfailing point of contact with his market.

For prompt action on sales plans—for quick customer influence at minimum cost—for real co-operation from the retail trade, the daily newspaper is to-day, as always, the outstanding advertising medium in Canada.

HEART'S CRY

BY KYLE WILLIS HEWITT

The Lathrop yacht anchored just off the shore of what, Connie said, looked like an enchanted island. Allen Lathrop, leaning against the deck rail watched his men lowering a boat.

"It might be that, I've an idea I'd discover a hidden treasure-maybe," he looked down at Connie the stiff dress clinging her red gold hair, the green sport dress whipped about the soft curves of her lithe figure. She was watching fighting for the glances usually as her wife with.

"I can't go alone, old dear. I've a dinner engagement. I'm been generous, giving you a whole afternoon," she flashed a smile that for years had made every hardship worth while.

"I'll say you have. When a woman gives up a whole afternoon to her own husband, he'd be dumb not to make the most of it. Allen laughed.

"Really, Allen, do tell Collier to put about—I must get back," she said impatiently.

"He will," she explored a bit. "It's early—please. I don't have you often to myself," he pleaded, drawing her to where the men were working with ropes and leech.

Connie flinched.

"Oh, very well—but make it May 17."

On the island, she was enchanted by its beauty. Allen looked at her and understood to Collier, then he turned to her through the foliage.

"It's about that and something else in it but—mille efforts, it's apparently," Allen answered curtly. Connie looked at him. He had walked on to the very end of the tiny island. Again she looked at her watch.

"Really, old thing, it's lovely here with you, but I must get back," she said. "It's a great life," she smiled fondly.

"That was her dog. He looked the way she said it. It must be that. Just that way about life. He bowed down at her. She was not to have married. His family had been told that she was too late to the mill.

Fashionably Speaking
By Lucille

Dear Readers: We will have a white summer this year. This is not the weather man's forecast. It is the probability of the fashion experts.

White is a far-reaching influence. It will adorn the lotus of the season. It is the color of the sea and of the sky. It is the color of the sun and of the moon. It is the color of the flowers and of the fruit.

White is the color of the future. It is the color of the new and of the old. It is the color of the rich and of the poor. It is the color of the young and of the old.

White is the color of the world. It is the color of the earth and of the sky. It is the color of the sun and of the moon. It is the color of the flowers and of the fruit.

A MORALE *is* BUILT UP

CANADIAN PACIFIC TODAY

The Canadian Pacific Railway runs from the Atlantic to the Pacific Ocean. Its lines sail from Vancouver and Victoria to Japan and China, and from Montreal, Quebec and Saint John to Great Britain and the Continent. It operates winter cruises to the Mediterranean, the West Indies and Round the World summer cruises to Europe; winter service to Bermuda, and a coastal service to Alaska. Its passenger and mail service is the fastest and most luxurious. Its telegraph service employs 225,000 miles of wire. Its express travellers' baggage are carried all over the world. Canadian Pacific offices and agents are to be found everywhere.

THE third generation now joins the ranks of those who serve the road. Fifty years of character building becomes a guarantee of service. This the traveller feels and appreciates.

The struggle to build and maintain the road has welded together the men who make it. Canadian Pacific is

not just a company but is a part of the life-blood of its members and of Canada. Trackwalker, engineer, trainman, are blood brothers to the President, and the humblest employee feels this.

"Serve our country and you will serve the road," one of its Presidents has said. Canada and the road are one.

DAVID BELASCO

Death has claimed David Belasco, greatest of United States producers of drama, a playwright, actor, and a leader in the theatre of the world. Some have even called him the greatest of actors the world has known. His fortunes gave a lavish setting to the production of his undoubted genius.

He knew the theatre from the outside and from the inside, few men ever possessed so intimate a knowledge of the reaction of the human mind to what transpires on the stage. By the age of 25 years he had acted one hundred and seventy-five roles. He had been call boy, pilot, scene painter, producer, and producer in his time. As Shakespeare in his 'loving calling as a boy' he had acted at the doors of the theatre, according to tradition, Belasco did the chores as a boy.

His ancestry suited the theatre. He came of Portuguese descent and his father was an English clown.

He was a strange combination of mysticism, religion, and superstition. He was dramatic and loved ritual, and in one of his rooms he had fitted up a shrine with bells tinkled as the door opened. That was doubtless a sign of the inherent love of ritual which in Belasco was a close relation of religion and of the drama for the drama was originally religious ritual. This was his explanation of elements of his art, marked in the incidents associated with the death of one of his daughters, whose tomb he had ordered that a light be placed to burn perpetually because she had died as a child of the moon.

He was a man of intense love and he loved his mother deeply. Of late years he was a religious man.

It is no wonder that as man and artist he is mourned by his native worth and his achievements in the dramatic sphere.

AN EXAMPLE

Taken at a comparatively early age by death, John Martin, agriculturist and master of the Masonic Order in Ontario, was no less a man of character than the one of which so much is heard. The late Mr. Martin was a man of character, a thorough devotee of work. His early days as teacher, his interest in agriculture and his interest in the Masonic Order, his wealth and reputation as well as public work, all reached their culmination in one man, John Martin.

A man of his stamp finds so much to do in life that he is full of opportunities that he scarcely feels like giving himself rest. The late Mr. Martin was a man of character, a thorough devotee of work. His early days as teacher, his interest in agriculture and his interest in the Masonic Order, his wealth and reputation as well as public work, all reached their culmination in one man, John Martin.

The late John S. Martin has left a heritage of ideals and practical works which will succeed him and will retard the benefits of future generations. His work will follow him.

Martin was the exemplar of work and business idealism. He made a name for himself in his breeding of Wyandottes. He made the business pay because he believed in the breeding of Wyandottes. He has shown how the practical and the ideal go together in the lives of our people.

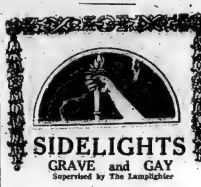

HONORING BEATRICE

Jersey Cow was the centre of attraction at Brantford Thursday night as a tribute to the record she made in the past season.

She has upheld the Jersey reputation in the eyes of the public and of the records made by other breeds.

Everyone likes the Jersey cow and those dairymen who set store on having her in honor in the hotel dining room like Beatrice's.

any mortal man, this incident in the life of Beatrice must have seemed all so strange and understandable, but yet it was a fact. People have said honor to the birds, decking him with garlands. Why not deck the cow as well as the dog!

END THOU SHALT NOT KILL

Despite the calmness and the gravity of the crime, the conviction of John Brockhouse, charged with the murder of a woman, has aroused considerable sympathy in the public mind.

MANENT

CONCRETE

THWAYS

A WELCOME

SIGHT

to the motorist

A smooth yet gritty surface that tines grip and hold for curves, grades or straight stretches. A surface that treats tires kindly and reduces fuel consumption materially. A surface that offers long-term visibility at night and less hazard by day. No wonder motorists map their trips as far as possible on concrete highways and greet each concrete as a well-tried friend.

Concrete paving is permanent

It stands up under constant heavy traffic. Communities that standardize on it find maintenance bills growing less and less each year while they get product increasing **NOMILEAGE**. Advocate concrete for **YOUR** community.

Amateur VAUDEVILLE

Contest at the CAPITOL TONIGHT at 9.15

Wide Variety of Entertainment at Belleville Theatres This Week

AMATEURS CONTEST AT THE CAPITOL

To successfully run a vaudeville contest composed of home talent, first prize is necessary in making sure that the contestants are really good. Chris G. Holmes, manager of the Capitol Theatre, who is no new hand at this sort of thing, and who is especially well known on setting a high standard of prizes in the theatre, is to that the audience as to the quality of the contestants as to the quality of the prizes offered.

The contest will take place between the two regular picture performances, at 8.15 a.m. and at the event will be followed by a reporter from the Ontario Intelligencer. A great crowd is expected to witness this novel and entertaining contest. The audience is advised to see the first performance of "Midway Express" and to have comfortable seats for the stage attraction.

Albany reported from France last week was valued at \$375,000. A record that has never been equalled.

The law that drifts down from the police regions each year would make a good book thick if it were spread evenly over the last hundred of the year.

MALTA GOVERNOR RESIGNS HIS POST

London, May 21.—It is officially announced that Sir John Peel, Governor of Malta, has resigned his post, after a controversy which is now being investigated by the British Commission. He resigned his post, effective June 30, and that the King has accepted the resignation.

The announcement said that the Governor had applied for permission to resign and also to retire from the army.

"MIDWAY EXPRESS"

With the exception of the acquisition of murders on the New York subway, the "Midway Express" is a murder mystery, and yet murder is committed—once after the other. Who killed "Toby" who killed the "whisper" what makes the victim dead? It is a something supernatural? Why did the woman follow by confiding to the police when the detective knew full well that she had no hand whatever in the murder?

Those and more questions are surprisingly answered in the readable mystery, "Midway Express," now playing at the Capitol Theatre.

Throughout all film week-end, "Midway Express" is spoken of most highly, it presents something new in mystery.

How It Happened

Cobourg, May 21.—A damage action for \$5,000 and costs, Mallet v. Campbell, was dismissed by Mr. Justice Garrow, thereby concluding the non-jury Supreme Court sittings here. The plaintiff complained of letters written, while he was employed as assistant station agent of the Canadian Pacific Railway at Brighton, by the station agent, Mr. Campbell, which was detrimental to him, resulting in his ultimate discharge from his duties. The presiding Judge did not find evidence to substantiate the plaintiff's claim, and dismissed the case.

ROYALTY AT SANDRINGHAM
London, May 21 (AP)—Their Royal Highnesses Prince Philip and Princess Anne, being the King and Queen left today by train for Sandringham, where they will spend the traditional holiday quietly. They expect to return to London Wednesday.
Before their departure, their Majesties were informed of the coronation of the Duke of Gloucester, and attended a slight opening morning.

In its first year the legal aid of the University of Southern California handed 1,600 cases for free to needy attorneys.

was made here today that the case which was heard in the County Court of Oshawa, Ont., between John Eves and his wife, Margaret Eves of this city, over the bringing up of their child, had been settled. It has been agreed between the father and mother that the father is bringing up the child in the Roman Catholic faith, and that it is not to be moved again without the consent of both parents. The father had had the child christened in the Anglican Church and the mother who is a Roman Catholic had the child baptized in her religion. The father has been asked to be allowed to have the child brought up in the Anglican faith, according to the counsel for the parties.

A sweepstakes was inaugurated for the match and four of the players each received three good golf balls for their prowess. A prize for the longest hole in hand was also given, won by Harry Ridley. This year's golfer shot two rounds of 44 each and with a handicap of 22 had a 66, which is some golfing on any man's course. Jack Marsh, junior captain of the Belleville Golf Club had second place with a 68. The 18-hole match ended hole competition, doing number five in four a fine score. Claude

ALWAYS

the backbone of Canadian advertising!

And particularly when selling becomes difficult—when prosperity lags—when the wheels of industry slow down.

During periods such as these, Canadian business executives depend more than ever on the daily newspapers to sell merchandise.

Why?

Mainly because daily newspapers produce *instant response, instant results.*

Daily newspapers *reach* and *move to action* vast groups of people quickly.

No other carrier of the sales message covers a market so *intimately, so completely.*

Practically every Canadian family reads a daily newspaper. It is an essential part of their daily life. Without it they would feel a distinct loss. Nothing can take its place. Because it occupies this unique position in Canadian life and thought, no form of selling can supplant the daily newspaper.

It is economical.

It is flexible:

It is the advertiser's unfailing point of contact with his market.

For prompt action on sales plans—for quick customer influence at minimum cost—for real co-operation from the retail trade, the daily newspaper is to-day, as always, the outstanding advertising medium in Canada.

LIQUIDATION IS ABOUT OVER VIEW OF CHAS. M. SCHWAB VOICED AT IRON AND STEEL INSTITUTE

Fear of Wage Outlets one of the Current Troubles
HOPEFUL VIEW
Bethlehem Steel Chairman Is President of Institute

NEW YORK, N.Y., May 22.—Charles M. Schwab told the American Iron and Steel Institute today that there was reason to believe liquidation was about over. Mr. Schwab, chairman of the Bethlehem Steel Corporation, is president of the institute, which held its semi-annual meeting here.

The steel industry, which has been tabling its wage scale although work has been resumed, has been disappointed in the rate of about \$20,000,000 tons Mr. Schwab said. This has been half of total capacity, of 40,000,000 tons, "but a good deal less than 50 per cent. of a normal operating level."

"There may be some further slowing down during the summer months, but the case is better than it was, but we have been looking up better than many have predicted."

Drastic Liquidation.—This figure of 30,000,000 tons represents a drastic liquidation of production. There are no inventories. Any steel ordered today has to be rolled. The longer we continue this 30,000,000 tons basis the sooner must we come to a catching up with supplies needed."

Mainstreamers' predicament.—Under normal conditions, there are 35,000,000 tons of steel annually in this country. The reason for the present slump below this level is because production has been cut down.

Stock market securities.—In Mr. Schwab's opinion, there has been a large "bull" market in securities. Fear of wage cuts and current difficulties and instability of prices is another, in the steel position. Labor cuts in the steel industry, he asserted, "without taking it out of the wage rate of the mill operator."

Within ten days a reservation of the institute industry has changed the balance of power between the steel and iron hunters to the latter.

MAY PLACE GOVERNORS UPON MOTORCARS TO CONTROL SPEED PREMIER APPEALS FOR SAFETY

Asks Motor Manufacturers Not to Stress High Speeds

"CUTTING IN" MENACE
Premier Cannot See Why Cars Advertised to Make 80 M.P.H.

Toronto, Ont., May 22.—(By The Canadian Press.)—Premier Robert B. Harte, in a speech before the House of Commons today, said that he was not in favor of the speed limit of 30 miles an hour, but that he was in favor of the speed limit of 30 miles an hour, but that he was in favor of the speed limit of 30 miles an hour.

Referring to the recent agitation in some parts of the province for a reduction of the speed limit, he said that if there is to be no speed limit, "I will have to limit the speed of cars. If motorists would respect the speed laws we would be able to reduce the annual number of automobile fatalities by half inside a year."

"Cutting in" is one of the most frequent infractions of the law," he said. "Continuing the speaker said, the present rate of the speed limit of 30 miles an hour is not sufficient to control the situation in the motor country, however, was entirely sufficient for that which applied in Ontario. He said: "The result in England has so many curves that driving at a high rate of speed is not possible, the Premier continued, that in Ontario, on the straight stretches of road, for considerable distances, "I have observed accidents, especially when there are some accidents, when

Constructors among them, why cars are advertised as able to travel 80 miles an hour, I have yet to receive a satisfactory answer," the speaker said.

However, many local papers now provide a wide range of news, including international news, sports, and local events. This makes them a valuable source of information for anyone interested in current events.

SENIOR GIRLS PLANNED MENU AT COLLEGIATE

Student Body Pleasued with
Dishes Prepared by Vocational Group

Meals served in the cafeteria of the Collegiate Institute and Vocational School last week were prepared by the girls of the senior vocational department, and their first venture met with an enthusiastic response on the part of the patrons of the cafeteria. Bringing to practical use the knowledge in domestic science which they had been acquiring in their course of study, the responsibility of preparing a good menu of food for the entire dining hall daily was a large undertaking even for the seniors. LOCAL BOXERS ARE DEFEATED

Three Belleville entrants in the local bouts at Limerick Friday evening were defeated. Lack of condition was stated to have been the cause of their defeat.

George Bennett, one of the smartest and heaviest-fighting fighters in Belleville, was defeated by his opponent, Tippling, for the first time in his career. In the third round Bennett's leg slipped and he went down on one knee in the corner. As he went to get up, Tippling manuevered him with a hammer fist on the button and knocked him out. Winning the fight, Jack Semple was defeated on points by Butchley, while Jack Porter, the third Belleville entrant, lost to Chitlock. Lou Marsh returned his fight.

LOCALS DIVIDE WITH POPULARS

Fast Double-Breasted Open-Local Softball Season

The local soft-ball season was officially opened by Mayor Ford yesterday afternoon, when the players of the Popular girls' soft ball team of Toronto, lined up with the local National Males at centre field and headed to the middle of the diamond where Jim Worsnip addressed the club and threw the first ball.

The visitors took the field and the battle was on. The locals were out in the first inning, but the visitors collected four runs in the second inning, the locals scored two times when they were in the top of the third. The game ended in a 10-2 victory for the visitors.

The Popular, sponsored by the Coleman Oil Burner Co., presented a smart night of ball-players. Miss Helen, their happy captain, led the team with three hits out of three times at bat. Their heavy hitter, M. Townsend, who covered first base all the ball for and others, also appears to be about as smart a girl ball player as we have seen in some time.

RICH WIFE AND POOR HUSBAND IN A PROBLEM PLAY

The latest drama of modern marriage to reach the screen unfolded a new twist to the theme of the time at the Belle Theatre last night. This one is a tale of "Rich Wife and Poor Husband" and it is a story of a man and a woman who are both rich and poor at the same time.

Both Miss MacCallum and Mr. McCallum perform with ease and conviction in their roles. Miss MacCallum is undoubtedly one of the finest actresses in the city and Mr. McCallum is a very good actor.

A Woman's Assurance of Independence

EVERY WOMAN who wants her own living-allowance through choice of necessity—can have her money safely and securely in a Mutual Life of Canada Pension Fund that will bring an income when her earning power has passed the peak, and thus enable her to be independent.

The Pension Fund is especially attractive to women because it can be purchased either with or without the insurance feature. When your own future is your only care, the Pension Fund Without Insurance (beginning age 50, 55, or 60) will make your future safe and independent.

At age 55 an average monthly deposit of \$16.50—subject to reduction during recessed and subsequent years by application of dividends—will provide an income of \$50.00 a month at age 65 for the balance of life.

If you have children or others dependent upon your earning power, you need the Pension with Insurance to protect them.

Take this time to financial independence. Sign and mail the coupon for full particulars.

There were two notes that were in dispute, one for \$100.00 and another for \$200.00. The notes were signed by both Denay and Whipple and neither one of them knew where the notes were in the second instance, as Whipple did not know any more than Denay was responsible for that note to the McGowan. The McGowan said that he had not any counter claim against either Denay or Whipple. The notes on the cattle were sent by Hutchinson to the McGowan and he was to take care of that and later Denay took care of the McGowan's cattle.

When the note was given, it was for \$100.00 and the McGowan said that he remained on hand, Whipple was for \$200.00 and the McGowan said that he remained on hand. The McGowan said that the evidence showed that the McGowan was a party to the transaction at a price of \$200.00 each, which was the price of the McGowan's cattle.

Why and How *Nevr-nox* was Created

"British-American" have long appreciated the crying need for a first grade gasoline that would eliminate "knocking" from high-compression engines . . . with no price penalty. ¶ In keeping with the same "British American" policy of thoughtful service which has endured for a quarter of a century, we set out to produce such a gasoline. ¶ Because anti-knock qualities are largely basic, we had to start with a search for the right crude. We searched until we found a field producing the proper quality of Crude Oil. ¶ We purchased properties, drilled wells and produced a Crude Oil with the highest Anti-Knock quality of any crude east of the Rockies. ¶ With improved refinery equipment we manufactured NEVR-NOX, the highest-quality, low-priced, anti-knock gasoline. ¶ The Crude Oil is our own production, it is transported in our own cars and ships, refined in our own Canadian plants . . . colored green to make identification easy . . . distributed through our own service stations and dealers and guaranteed by ourselves. ¶ Wherever "British-American" products are sold NEVR-NOX will be on sale Monday, June 1st . . . and thereafter.

Announcing *Nevr-nox* GASOLINE *"All that the name implies"*

Produced for the hundreds of thousands of car owners who have long sought a quick-starting, clean, powerful, true, anti-knock gasoline . . .

AT NO EXTRA COST

You will never know how good a non-premium priced anti-knock gasoline can be until you have tried this New "British-American" Product.
